This completely new **Specialist NPQ** has an evidence-informed curriculum design, connecting you to the latest research and best practice. Our research-rich course covers all of the core content in the **government's Framework** for this qualification. It will help you to:

- A professionally aware and informed leader who can make evidence-based decisions and approach leading teacher development in an effective and efficient manner
- The ability to review and evaluate practice in order to bring about change and get the best outcomes for young people and staff within the organisation

Our Approach

Delivery of the curriculum is grounded in TDT's values of:

- SMART - we think about what the evidence tells us, but we also really care about how things are done
- HEART - it's not just taking the evidence base and implementing it any old way, it needs to be done in the right way if you want to have that sustainable impact
- HUMBLE - we recognise that there is no single perfect answer to any situation - participants will come from different environments, different schools, different contexts - and we need to understand the limits of what the evidence tells us at times and use our judgement

- Understand the evidence underpinning the Early Career Framework and effective teaching throughout a career
- Design effective professional development programmes and environments
- Deliver effective professional development, harnessing expertise and collaboration for maximum impact
- Create and implement effective and sustainable change to drive real improvements in your school
