Introduction to the programme

Welcome to the Early Career Training Programme.

We're pleased to on-board you into the online learning platform, where you can complete the induction course, book onto training sessions and become familiar with the platform structure and layout.

We are continually on-boarding users, including ECTs, at this busy time. Like yourself, ECTs are required to complete a mandatory onboarding questionnaire. This means you may not yet see all the people you'd expect to be linked to. Please bear with us and check back regularly; everyone is being on-boarded as quickly as our rigorous process and checks allow.

Once ECTs have completed the knowledge diagnostic quiz you'll see the outcome in this diagnostic report. This helps inform your choice of learning path.

This overview document (pdf) shows all the components of your one-year programme.
